On April 11, 2017 at approximately 6:32 pm the Nashua Police Department received several complaints regarding threats being made via social media, directed at multiple Nashua High School students. Some of the individuals reporting to police perceived the threats as being directed towards Nashua High School South as well as individual students. The Nashua Police Department's Special Investigations Division investigated and determined that none of the threats were specifically directed towards the school. The Nashua Police Department immediately notified the Nashua School District and kept Superintendent Brown informed as the investigation progressed.

Through the course of the investigation, detectives identified a 15 year old male student as the individual who posted the threats on social media. The threats were directed at individuals who were identified as Nashua students. The threats were of a violent nature and included photos of firearms in the social media posts. At approximately 11:00 pm the juvenile was arrested. The investigation is continuing; however there are no known threats to any students at this time.

As indicated, there were no direct threats made to the Nashua Schools. However the Nashua Police Department, in conjunction with the Nashua School District, arranged to have an additional officer presence at both High Schools.
